Managed Information Systems

Let us manage your network, so you can manage your business!

We diagnose computers and network systems.

SCTelcom is comprised of some of South Central Kansas' most talented network engineers. Our staff is experienced in areas ranging from PC hardware, Network Management Services, LAN/WAN Routers to virtual private networks and firewalls. We specialize in providing web hosting, email hosting, and providing cost saving solutions to traditional MIS projects. We are committed to providing only the finest quality support to South Central KS.

Please contact us for a complete list of services.
